## **Staring Each Other Down**

## **Brenda Lee**

You're hangin' on his arm she's holdin' mine a fool must have s aid love was blind We're shouting I love you's with people all around and they don 't hear one sound Let her eyes do the talkin' and her eyes do the walkin' And her eyes do the slipping around staring each other down And we're both on to how long a slow song would be for us now This timebomb we're holding is so near exploding right down So let her eyes do the talkin' and eyes do the walkin' Her eyes do the slipping around staring each other down Staring each other down
