## **Strawberry Snow**

Brenda Lee

Sleep with your spoon in your pillow Don't be the witch that bends the Willow No matter how old you are Morning may bring, Strawberry Snow

Little boys and girls make raindrops turn to Lemon Then, little boys and girls turn into men and women Those that are happy are those that still know That morning may bring, Strawberry Snow

Smile though your heart has no reason

Drink everyday that's the season Ask little children, they know Morning may bring, Stawberry Snow

Ask little children, they know Morning may bring, Strawberry Snow
