

Take my hand and let it begin
Open your heart and let me in
Girl, I think I'm in love with you
And I think your in love with me too

There's this girl whose kiss is all I dream of
I'm the boy who prays it's with me that she's in love

The summer has come, and with your face
In my mouth its your skin I can taste
I know the way past all of your fear
It's a song that I sing in your ear

There's this girl whose kiss is all I dream of
I'm the boy who prays it's with me that she's in love

There's this girl whose kiss is all I dream of
I'm the boy who prays it's with me that she's in love

If I knew the words, I would write to her
And if I only had wings, I could fly to her

There's this girl whose kiss is all I dream of
I'm the boy who prays it's with me that she's in love

There's this girl whose kiss is all I dream of
I'm the boy who prays it's with me that she's in love

There's this girl whose kiss is all I dream of
I'm the boy who prays it's with me that she's in love

There's this girl whose kiss is all I dream of
I'm the boy who prays it's with me that she's in love

There's this girl whose kiss is all I dream of
I'm the boy who prays it's with me that she's in love
