

## Get It Right

Brendan James

Deep is the water under my bridge, flowing  
And short is the lifetime that I've lived, knowing  
Messing up and starting over again  
Maybe all the breaks and the young mistakes were  
supposed to carry me here  
This time I gotta get it right gotta get it right now  
gotta get it right this time  
Lord knows I've let myself down too many times, many  
times  
This time I gotta get it right gotta get it right now  
gotta get it right this time  
My life is passing me by gotta take a deep breath, and  
get it right  
Looking for answers what have I missed, someone  
I want to be so much better than this, in the long run  
Stepping forward and falling backwards again  
When I get the breaks will the young mistakes be the  
ones to carry me on  
This time I gotta get it right gotta get it right now  
gotta get it right this time  
Lord knows I've let myself down too many times, many  
times  
This time I gotta get it right gotta get it right now  
gotta get it right this time  
My life is passing me by gotta take a deep breath, and  
get it right  
I know I'll get there, things will get better  
Better with every day  
And what lies behind me will not define me.  
I tell myself nothing can stop me now  
This time I gotta get it right gotta get it right now  
gotta get it right this time  
My life is passing me by gotta take a deep breath  
This time I gotta get it right gotta get it right now  
gotta get it right this time  
Lord knows I've let myself down too many times, many  
times  
This time I gotta get it right gotta get it right now  
gotta get it right this time  
My life is passing me by gotta take a deep breath, and  
get it right
