

Get It Right

Brendan James

Deep is the water under my bridge, flowing
And short is the lifetime that I've lived, knowing
Messing up and starting over again
Maybe all the breaks and the young mistakes were
supposed to carry me here
This time I gotta get it right gotta get it right now
gotta get it right this time
Lord knows I've let myself down too many times, many
times
This time I gotta get it right gotta get it right now
gotta get it right this time
My life is passing me by gotta take a deep breath, and
get it right
Looking for answers what have I missed, someone
I want to be so much better than this, in the long run
Stepping forward and falling backwards again
When I get the breaks will the young mistakes be the
ones to carry me on
This time I gotta get it right gotta get it right now
gotta get it right this time
Lord knows I've let myself down too many times, many
times
This time I gotta get it right gotta get it right now
gotta get it right this time
My life is passing me by gotta take a deep breath, and
get it right
I know I'll get there, things will get better
Better with every day
And what lies behind me will not define me.
I tell myself nothing can stop me now
This time I gotta get it right gotta get it right now
gotta get it right this time
My life is passing me by gotta take a deep breath
This time I gotta get it right gotta get it right now
gotta get it right this time
Lord knows I've let myself down too many times, many
times
This time I gotta get it right gotta get it right now
gotta get it right this time
My life is passing me by gotta take a deep breath, and
get it right
