

Never Break Me

Brennan Heart

You can beat me till I'm bleeding on the floor
You can call me names to bring me down so more
But you will never break me
You will never break me
Why do you try to erase all that I am
Trying to weaken me cause you don't understand
But you will never break me
You will never break me

You will never break me

You can beat me till I'm bleeding on the floor
You can call me names to bring me down so more
But you will never break me
You will never break me
You will never break me
You will never break me
