

# Catch You On The Rebound

**Brenton Wood**

You been gone now almost a year and ask me to forget and forgive

Later baby

Catch you on the rebound

Rebound

You didn't even write me or drop me a postcard

Now you want to come back and make a new start

Later baby

Catch you on the rebound

Rebound

Ooh you were the first love that I ever had

But you been gone so long now I don't feel so bad

Later baby

Catch you on the rebound

Rebound

I was hoping and praying

That I see the day when I could tell you to your face

Later baby

Catch you on the rebound

Rebound
