

Not Too Late

Brett Dennen

When you find a love that satisfies your soul
Nothing else on earth on else will ever do
I don't think too much about what the future holds
I know I wanna spend my time with you

I've been higher than a frequent flyer
I've been down so low

Hey I, got this feeling I can't deny
That its not too late to give it one more try
Hey now, come on baby don't let me down
Cuz it's not too late to turn this thing around

When you're driving down along a lonesome road
The less you have, the more you will receive
Put down your heavy load
The more you give, the less you really need

I feel higher than a frequent flyer
Nothing's gonna get me down
Hey I, got this feeling I can't deny
That its not too late to give it one more try
Hey now, come on baby don't let me down
Cuz it's not too late to turn this thing around
