

# Shadow

Brett Eldredge

I got a shadow and it follows me around  
Wherever I go, it moves without a sound  
My alter ego, that hunts me down and gets me  
Finds a way to trick me  
Then drowns me in the whiskey  
Hold up, I need some help  
The more you feed the beast, the more he raises hell  
I know, I got a problem  
But you know what they say  
Smoke 'em if you got 'em

[Chorus:]

Feeling good  
Probably better than I should  
It's gone too far  
I'm standing up here dancing on the bar  
There's no denying  
He came uninvited  
But I kinda like him, oh no

Find me a preacher, I'm down on my knees  
I need a leader to break these chains off of me  
Don't let 'em hurt me, I'm getting kind of worried  
Vision's getting blurry, please, somebody hurry

[Chorus]

Pretty little angel, whisper in my ear  
Please just make him disappear  
I don't know if I can take no more

[Chorus]

Gotta wait for that sun to go down  
He's following me around  
But it gets worse at night  
Alright, give me another drink, C'mon
