

# Beautiful Believer

Brett Young

Road into town and only 18  
My girl beside me and a baby in a car seat  
Everybody called me crazy  
That was fine as long as I knew  
She believed  
Not a nickel to our name  
Cheap motel east side of town just south of Main  
Songs I wrote for change  
And one day I'd be headlining the stage

She gives me strength  
When mine's all gone  
She always keeps me hanging on  
When I feel I've lost my way  
She leads me home  
She don't know how much I need her  
A beautiful believer

I just got the news today  
You know that song I wrote for you has made its way  
Then oh so much has changed  
You know the one thing that has always stayed the same

She gives me strength  
When mine's all gone  
She always keeps me hanging on  
When I feel I've lost my way  
She leads me home  
She don't know how much I need her  
A beautiful believer

Beautiful believer  
Every time I doubt myself  
Before I even ask for help  
She's right there next to me  
A beautiful believer  
Every night I close my eyes  
Just knowing that she's by my side  
That's all I really need

She gives me strength  
When mine's all gone  
She always keeps me hanging on  
When I feel I've lost my way  
She leads me home  
She don't know how much I need her  
A beautiful believer  
She don't know how much I need her  
A beautiful believer
