

## First

Brian Doerksen

All the love we give you've given first  
All the love we give you've given first  
All the love we give you've given first  
All the love we give you've given first

When we offer your our lives  
Every sacrifice is given first  
Who've given first  
And when we make the choice to serve  
Attending others needs who served us first  
Who served us first  
Yeah, is nothing we can't do, that you not done for us  
Father you're a sorcerer, that's love

So we love to give you because you gave so much  
Now we live to love because you're person of trust  
So we love to give you because you gave so much  
Now we live to love because you're person of trust

You loved us first  
All the love we give you've given first  
All the love we give you've given first  
All the love we give you've given first  
All the love we give you've given first

When you walk in faithfulness keeping cover  
You're faithful first, faithful first  
When you run to win the prize, to reach the finish line  
You're running first, running first  
Every path we suffer on, you have walked before  
Every victory we won it's yours

So we love to give you because you gave so much  
Now we live to love because you're person of trust  
So we love to give you because you gave so much  
Now we live to love because you're person of trust  
So we love to give you because you gave so much  
Now we live to love because you're person of trust  
So we love to give you because you gave so much  
Now we live to love because you're person of trust

All the love we give you've given first  
All the love we give you've given first  
All the love we give you've given first  
All the love we give you've given first.
