

I See the Cross

Brian Doerksen

I see the cross
And it's all I need to see
I see the cross
And it calls me to believe

No other way to be reconciled
To receive complete forgiveness
No other choice could have set us free
Could have paid the price of justice

So I come as I am
To the place where mercy meets me
I see the cross

I see the cross
Lifted high for all to see
I see the cross
It's the love the nations need

No other way to be reconciled,
To receive complete forgiveness
No other choice could have set us free,
Could have paid the price of justice

So I come as I am
To the place where mercy meets me
I see the cross

You suffered and died, poured out Your life
You showed us the way to truly be great

Yet this just begins the Father's full plan
Now there is a way to share in Your

Resurrection, live forever
Through Your death and life

We'll share Your resurrection, live forever
Through Your death and life
