

Get The Message

Brian Hyland

I can't seem to quite
Get through to you, baby
Looks like your reception
Isn't too clear

We must be tuned in to
Two different wavelengths
You just don't hear

Get the message that I'm sending
With a heartbeat never ending
Can you hear me when you're near me
Do you read me, do you need me
Please receive me, please believe me
'Cause I love you, yes, I love you
Get the message, get the message

What I'm trying to
Tell you is very simple
We've been communicating
This way for years

If you still don't
Understand what I'm saying
Just look at my tears

That I'm sending
With a heartbeat never ending
Can you hear me...
