

# Come With Me

Brian McComas

Mark D. Sanders / Branden Hart

You say you want a lover with a sense of danger  
Come with me  
I've got some Willie Nelson in my CD changer  
Come with me  
If you think im tryin' to steal your heart  
Baby give it some time  
It could be that we might found out  
It's you who's stealin' mine

CHORUS

Come with me, let's hang out  
Let's shout from the rooftops  
And run through some raindrops  
Make love and don't stop  
Who knows where we'll end up  
Who cares, just come with me

You say you want somebody just as wild to run with  
Come with me  
Someone that you know you're gonna feel one with  
Come with me  
Girl, you know I'm taken by your confidence  
It's a beautiful sight  
When I see what I want, I go right after it  
And that's what I'm seeing tonight

CHORUS

Come with me, let's hang out  
Let's shout from the rooftops  
And run through some raindrops  
Make love and don't stop  
Who knows where we'll end up  
Who cares, just come with me

Baby, come with me  
Oh baby, come with me, let's hang out  
Let's shout from some rooftops

And run through some raindrops  
We'll make love and won't stop  
Who knows where we'll end up  
And who cares, just come with me  
Come on, baby  
Oh baby come with me  
Come with me, oh yeah  
Oh baby, come with me  
Oh baby, come with me  
Come with me, come with me
