I Could Never Love You Enough

Brian McComas

I heard so many times
You've got to take love slow
That's just something said
But unsure people who don't know
What it's like to fall
When you fall with all your heart
Wanting to be together every second you're apart
Must not know what it feels like to feel like this
Longing for each moment
Waiting for each kiss

CHORUS
I could never love you enough
I could never hold you too tight
Never give too much of my heart
Never spend too many nights
With my arms just wrapped around you
And a million stars above
Baby, I still can't believe I found you
I could never love you
Never love you enough

Seems like the time we're given
Always goes too fast
Before I know it, with you girl
The future is the past
Second turn to hours
The hours turn to days
Seems like you're always leaving
When I'm wanting you to stay
'Cause I could spend the rest of my life with you mine
And still it'd only feel like a few seconds in time

CHORUS
I could never love you enough
I could never hold you too tight
Never give too much of my heart
Never spend too many nights
With my arms just wrapped around you
And a million stars above
Baby, I still can't believe I found you
I could never love you
Never love you enough

I could never love you enough
I could never hold you too tight
Never give too much of my heart
Never spend too many nights
With my arms just wrapped around you
Underneath a million stars above
Baby, I still can't believe I found you
I could never love you
Never love you enough

I could never love you enough
