

# I'll Believe It When I See It

Brian McComas

You say that I'm the one  
Call me the chosen son  
It's all as good as done  
The choice is mine to make

But I've lived enough to see  
That nothin' comes for free  
So how can you prove to me  
It's worth the chance I'll take

Yeah you can talk the talk  
But can you show me that you're able  
When you wanna walk the walk  
That you can bring it to the table

I'll believe it when I see it  
Can't just say it, got to be it  
Who you are and claim to be  
Don't always seem the same to me  
Yeah it's more than empty words  
That we've all already heard  
You say you can guarantee it  
I'll believe it when I see it  
Yeah

A time or two before  
When I've walked through your door  
I've expected so much more  
But back then I was blind

Now I know your kinda tricks  
I've seen your politics  
So I won't be so quick  
To let you change my mind

You think you can make a promise  
And expect me to believe  
Well call me a doubting Tomas  
But I'm stickin' to my creed

I'll believe it when I see it  
Can't just say it, got to be it  
Who you are and claim to be  
Don't always seem the same to me  
Cause it's more than empty words  
That we've all already heard  
You say you can guarantee it  
I'll believe it when I see it  
Yeah

Oh yeah

You think you can make a promise  
And expect me to believe  
Well call me a doubting Tomas  
But I'm stickin' to my creed

I'll believe it when I see it  
Can't just say it, got to be it  
What you are and claim to be  
Don't always seem the same to me  
Yeah it's more than empty words  
That we've all already heard  
You think you can guarantee it  
I'll believe it when I see it

I'll believe it when I see it  
Can't just say it, got to be it  
Who you are and claim to be  
Don't always seem the same to me  
Yeah it's more than empty words  
That we've all already heard  
You think you can guarantee it  
I'll believe it when I see it  
When I see it, yeah

Yeah you gotta show me  
Oh yeah  
Oh you gotta show me
