Room To Breathe

Brian McFadden

You think you know me
Think I give a damn
The boy who was foolish has made me a man
Is it wrong that I don't care
That I don't want you anywhere
Near my face or near my friends
Don't shed a tear when my life ends

Well I told you not to call me cause
I just can't stand your voice
And all it takes is your name mentioned
To ignitie the fear of suffering
Don't even say you're sorry cause I know it's a lie
Here's goodbye forever can't you give me just a little
Room to breathe
(can't you just leave it alone now)
Give me just a little room to breathe
(don't you think you've taken enough now)

Nothing you say now can change anything
I don't care how you feel
I don't care what you mean
Save it all for someone else
You can drag them through your hell
For all I care and I don't
You've killed me once wasn't that enough

Well I told you not to call me cause
I just can't stand your voice
And all it takes is your name mentioned
To ignitie the fear of suffering
Don't even say you're sorry cause I know it's a lie
Here's goodbye forever can't you give me just a little
Room to breathe
(can't you just leave it alone now)
Give me just a little room to breathe
(don't you think you've taken enough now)

Can't get far enough away

Well I told you not to call me cause
I just can't stand your lies
I said goodbye forever can't you give me just a little
Room to breathe

Well I told you not to call me cause
I just can't stand your voice
And all it takes is your name mentioned
To ignitie the fear of suffering
Don't even say you're sorry cause I know it's a lie
Here's goodbye forever can't you give me just a little
Room to breathe
(can't you just leave it alone now)
Give me just a little room to breathe
(don't you think you've taken enough now)
