

Three Babies & A Man

Brian McFadden

First baby comes and it's funny
How a little can change everything
I don't see very much of my honey
I don't get a peep, I just get no sleep

I'm craving for a piece of your lovin'
I'm crazy for a piece of your time
But don't go thinking I will be changing
If I had the chance
I miss it when we used to dance

All night long
To that same old song
As the night crept in to dawn
We keep dancing on
Now it's been far too long
Since we played that song
So lets move some things around
And keep dancing on

Second baby I can see trouble
And it seems to be
Ganging up on me
I feel like I just stopped in a bubble
And forgot to breathe
And I cannot leave
You can't even think about loving
But I'm thinking 'bout it all of the time
Don't go thinking I will be changing
If I had the chance
I miss it when we used to dance

All night long
To that same old song
As the night crept in to dawn
We keep dancing on
Now it's been far too long
Since we played that song
So lets move some things around
And keep dancing on

Life is a ?
I will be strong
And so it goes on
The world is revolving
Spinning away
We'll be OK

If the third baby comes I'll be running
I'll be terrified, if it's not a guy
It feels like I'm becoming a woman
I don't stand a chance
I miss it when we used to dance

All night long (all night long)
To that same old song (yeah)
As the night crept in to dawn

We keep dancing on
Now it's been far too long (far too long)
Since we played that song (yeah)
So lets move some things around
And keep dancing on

All night long
To that same old song (to that song)
As the night crept in to dawn
We keep dancing on (we keep dancing on)
Now it's been far too long
Since we played that song.....
