

# Been So Long

Brian McKnight

Praising right out of the blue  
And i felt got the reasons why  
Why i went away  
Funny how u open that door  
And asked me walks in  
The only think that i know for sure  
Exactly how long has been

- Cause baby has been so long  
Since i had u here with me  
Baby is been so long  
Baby come to me

Do you ever think of us  
And the way it used to be  
Day and night all over ur touch  
Of the things u do to me  
They say is just like writing a pad  
Somethings u never forget  
U know all the things that I'd like  
Lets see how much harder it gets

They playin my song  
It might be wrong  
I hope that this night dont end  
It might be right  
Right here tonight  
What do u say, can u stay

[Repeat 1]
