

# Can You Read My Mind

Brian McKnight

When I'm all alone at night  
I can hear the beating of your heart  
I should tell you and I might  
Before you tear me apart  
You're all I ever think about  
All I ever dream about  
Can you read my mind?  
Can you read my mind?

Oh when I look at you  
I probably should go  
Cause I wanna be with you  
More than you'll ever know  
Hmm for a taste of you  
I could calm my desire  
Baby you blow my mind  
You light my fire, oh

I want you (yeah)  
Need you (yeah)  
Can't live without you

When I'm all alone at night  
I can hear the beating of your heart  
I should tell you and I might  
Before you tear me apart  
You're all I ever think about  
All I ever dream about  
Can you read my mind?  
Can you read my mind?

Is it the way I feel?  
The curiosity or the things you do  
That brings out the lust in me  
The thought of me and you, drives me wild  
Come close to me  
Can you stay awhile?

Hold you, need you  
Can't live without you

When I'm all alone at night  
I can hear the beating of your heart  
I should tell you and I might  
Before you tear me apart  
You're all I ever think about  
All I ever dream about  
Can you read my mind?  
Can you read my mind?  
When I'm all alone at night  
I can hear the beating of your heart  
I should tell you and I might  
Before you tear me apart  
You're all I ever think about  
All I ever dream about  
Can you read my mind?  
Can you read my mind?

Yeah  
Hold you, need you  
Can't live without you

When I'm all alone at night  
I can hear the beating of your heart  
I should tell you and I might  
Before you tear me apart  
You're all I ever think about  
All I ever dream about  
Can you read my mind?  
Can you read my mind?
