

# Cherish

Brian McKnight

Thinkin' back in time  
Someone said that love was blind  
But they were wrong  
You just choose not to see me

When it's right before your eyes  
You'd rather compromise  
Then give your all  
Then it don't turn out  
The way it's supposed to be

Time and time again you disapoint  
When she belives  
Just do your best  
And give her what she needs  
And...

Cherish her love  
Show her she's right where she belongs  
Take care of her heart  
Before she's gone  
Cherish her love

It might be hard to conceive  
Yougotta see the forest  
Despite the trees  
Before it all burns down

Not tellin' ya nothing you dont't know  
But she'll let you have your fun  
But when a woman's done when she's done  
And then she'll go  
Just when you're needin' her the most

Time and time again you disappoint  
When she beleives  
Do all you can  
To give her what she needs

And if you care about the weather  
Keep her safe and warm  
Let nothing in between stand in your way  
They say it's calm inside the eye of the storm  
Together come whatever  
Come what may  
Just...

[Chorus]
