

# Made for Love

Brian McKnight

I was wrong and on sunset I was pushing my Spider  
And I caught up to you at the line  
I as used to pull over  
This is how it all started  
I asked you for your number  
You took mine

Now I don't believe in destiny  
But I think I see it right before my eyes  
Oh I

Baby now we're dancing in the moonlight  
Got me falling to pieces  
Underneath the star light  
See if we can keep it  
Going til the sun light  
And baby we were made for...  
We were made for love

We took a left on Oceanica  
Took the family sold it  
You said you were getting hungry, so was I  
I suggested walkin you  
You said that was just perfect  
Got to know each other  
But you heath in mind

Now I don't believe in destiny  
But I think I see it right before my eyes  
Oh I

Baby now we're dancing in the moonlight  
Got me falling to pieces  
Underneath the star light  
See if we can keep it  
Going til the sun light  
Baby we were made for...  
We were made for love

Out of the dark, love me right from the start  
Wish you could feel that my heart is beating  
If this is make-believe, you'll get it in return  
I'm hoping that this night never ends

Baby now we're dancing in the moonlight  
Got me fallins to pieces  
Underneath the star light  
See if we can keep it  
Going til the sun light  
Baby we were made for...  
We were made for...
