

# Nothing But a Thang

Brian McKnight

Have you noticed when we touch  
I can't seem to get enough  
The more that we spend apart I'm on the sweet waves  
I want to be with you in so many ways

The love we make is more than just for real  
It's more than what we feel  
What we have is nothing but a thing  
Nothing but a thing  
We don't have to try  
Morning to all night  
What we have is nothing but a thing

Baby, come to me  
Take me as I am  
And take whatever you want from me  
I don't give a damn

Close your eyes, feel me  
Imagine love so deep  
I take my time, you're super fine  
This is what I'll keep

The love we make is more than just for real  
It's more than what we feel  
What we have is nothing but a thing  
Nothing but a thing  
We don't have to try  
Morning to all night  
What we have is nothing but a thing

We're caught up in the moment  
2 luck stars about to shine  
When it's feeling like you never felt  
Then tears fall from your eyes  
And all about acknowledgement of how you make me feel  
It's evident that this is not a dream, it's for real

The love we make is more than just for real  
It's more than what we feel  
What we have is nothing but a thing  
Nothing but a thing  
We don't have to try  
Morning to all night  
What we have is nothing but a thing  
Nothing but a thing

More than just for real  
More than what we feel  
What we have is nothing but a thing  
Nothing but a thing  
We don't have to try  
Morning to all night  
What we have is nothing but a thing
