Brian McKnight

Funny when you stop and think
Time goes faster than you blink
Nothing's ever like it was
but girl we've got a special thing
all the happiness it brings
is more than enough

I know it's hard to believe You're still the biggest part of me all I'm living for I still think about you I still dream about you I still want you and need you by my side I'm still mad about you all I ever wanted was you your still the one It's hard to breathe when were apart You're like sunshine in my heart I keep you here inside you've been everything to me you've been and always will be the apple of my eye

And I know it's hard to believe You're still the biggest part of me all I'm living for I still think about you I still dream about you I still want you and need you by my side I'm still mad about you all i ever wanted was you your still the one If you love me look into my eyes and say you do I've been waiting all my life for someone just like you baby all that we've been through Girl I'm still in love with you and I want you to know I do, I do

I still think about you
I still dream about you
I still want you
and need you by my side
I'm still mad about you
all I ever wanted was you
your still the one [2x]
