

# Hang On

Brian Melo

Dry your eyes  
'cause you're no fool  
Don't believe everything  
That they're telling you  
You can climb your ladder to the sky  
And view the world from your own satellite  
Switch it on  
Switch it on  
The truth lies  
So high  
Don't wanna come down  
Will you ever come down?

Hang on...  
You gotta get back what you can  
You gotta get back to yourself  
Hang on...  
You gotta get back what you can  
Before you break what's in your hands  
Hang on...

You don't need a hand  
Don't need a clue  
Just navigate  
To what moves you  
You can be that star that lights your sky  
Put some colour in your darkest night  
Switch it on  
Switch it on  
The truth lies  
So high  
Don't wanna come down  
Will you ever come down?

Hang on...  
You gotta get back what you can  
You gotta get back to yourself  
Hang on...  
You gotta get back what you can  
Before you break what's in your hands  
Hang on...
