8-Track

Brian Setzer

Food's on the table and the coffee's getting cold And I haven't eaten since I don't know when My 8-track's pumpin' out a country song And I'm tearing down the highway again

There's a little hideaway Where my baby waits for me In a little cozy booth by the door I looked all around but my baby had gone She just couldn't wait anymore

My 8-track's pumpin' out a country song About a girl that's done me wrong My 8-track's playing all your favorite songs So come on honey sing along

It's a Tennessee tradition To loose your inhibition So check your attitude by the door And hear this little tune that I wrote this afternoon And I won't bother you anymore

My 8-track's pumpin' out a country song About a girl that's done me wrong My 8-track's playing all your favorite songs So come on honey sing along My 8-track's pumpin' out a country song About a girl that's done me wrong My 8-track's playing all your favorite songs So come on honey sing along

8-track
My 8-track player of love
