

# Ignition

Brian Setzer

Well she's got hydramatic hips  
Lips like fluid drive  
And if you don't believe man  
Just take her for a ride

Some say that she's built for comfort  
Others built for speed  
Well she just makes my engine race  
She's everything I need

Ignition  
She turned the key and my heart jumps  
Ignition  
She sure can make my spark plug pump

Well cruisin' with my baby I check out every curve  
And if I say I'm out of gas You don't believe a word  
Call it electricity but something is in the air  
Oh when my baby kisses me Sparks fly everywhere

Ignition  
She turned the key and my heart rocks  
Ignition  
She sure can make my spark plug pop

Pull up to the starting gate you know you're doing fine  
Brother you just hug that rail 'till you reach the finish line

If you drive in the fast lane And think your cruisin' high  
Check out your rearview mirror man Let the real thing by  
'Cause when I got ignition I just can't shut it down  
I'll race 'till you're out of gas  
I'll run you out of town

Ignition  
She turned the key and my heart jumps  
Ignition  
She sure can make my spark plug pump

Ignition  
She turned the key and my heart rocks  
Ignition  
She sure can make my spark plug pop
