

Your Life Over Mine

BriBry

My imperfections, you let them mean nothing
I'd have done the same with yours if you had any
Just because I'm a mess doesn't mean this has to end
I deem it a certainty, you'll never find such love again

Take another step, take another step back, don't leave
Look at where we've been through time
I'll always value your life over mine

My limitations, we laughed about them
The irony of feeling small when I am over 6 feet tall had you s
old on me
But just because I'm a mess doesn't mean this has to end
I deem it a certainty, you'll never find such love again

Take another step, take another step back, don't leave
Look at where we've been through time
I'll always value your life over mine
