

Evil Dreams

Bride

All my life I've searched for power
The ability to do or act
To gain control over the simple ones
To show the wise fiction from fact

And evil dreams - they come to me in my sleep
Evil dreams - they won't get the best of me
Evil dreams - they come to me in my sleep
Evil dreams - they won't get the best of me

Every day my energy was released
So effective, but very deceiving
Honest expression to cheat the children
Foist upon to leave their mothers grieving

Evil dreams - they come to me in my sleep
Evil dreams - they won't get the best of me
Evil dreams - they come to me in my sleep
Evil dreams - they won't get the best of me

Rip, tear, shred, bleed, no surrender 'til i'm freed
Thrash, smash, evil mind, blood is shed, save mankind
Kick, scratch, bite, claw, no matter what it takes
Push, shove, punch, crawl, fighting to be saved
Stand, fight, turn or run, can you take the pain to come
Lust, love, trust, deceit, can you swallow what you eat
Whiplash, bent and twisted, got to stand double fisted
Please believe me when i say it's no so easy on this stage

Slight of the hand, authority was gifted to me
Hallucination manifest, who was blind, who could see
The earth was my water that filled my well
I was the devil, she was my hell

Evil dreams - they come to me in my sleep
Evil dreams - they won't get the best of me
