Live to Die

I won't say we don't need guns But I know we don't need war I won't say that you need religion But without a Savior there's no chance to be forgiven

I won't say there's some things you can't deny But one thing's for sure - true love will never die

I'm not the preacher and I'm not the priest I'm not the devil and I'm not the beast I'm not a prophet and I'm not a witch Live to die, die to live

I won't say that we're all damned But this I know - we're children of the Lamb

I'm not the preacher and I'm not the priest I'm not the devil and I'm not the beast I'm not a prophet and I'm not a witch Live to die, die to live

Live to die, die to live

Bride
