

# Metal Might

Bride

Can you see the sorrow in my eyes  
You know it's your behavior that I despise  
I search for what is truth  
You wonder what's in it for you  
You wonder if you can make it through

Because I sing in all the wrong places  
Because I'm seen with all the wrong faces  
Its not just the music that they fear  
But the words I speak are so clear  
That's right, that's metal might

The ones with power they have control  
You know - their mere words will direct your soul  
My words of steel carry through the night  
Leaving behind the wake of metal might

Because I sing in all the wrong places  
Because I'm seen with all the wrong faces  
Its not just the music that they fear  
But the words I speak are so clear  
That's right, that's metal might

You've got to do what's right  
You gotta sing for 'em  
Gotta pray for 'em  
Gotta fight for 'em

METAL MIGHT

That's right, that's metal might
