

# We Are The People

**Bride**

My God is a God of war and peace  
We battle the lies spreading of the disease  
My life is a sacrifice that's why I see  
You are either for or against me  
I am the saint that broke the curse  
I am the monk of a thousand births  
We are the people

I am a man of complexities  
I pray that you see the Christ inside of me  
I am the storm clouds full of rain  
Heaven will open and you can't contain  
Fireball coming right out of the sky  
See the glow light in my eyes  
You swear that we're all going to die  
I say Hallelujah I'll take that ride
