

# City Of Angels

Bridge to Grace

I'm crawling under  
The city of angels  
I'm further from my own  
The lights go stronger  
The fight moves under  
I'm breaking under fire  
No one will hold you, hold you

Everytime I look into your eyes  
I see this angel deep inside  
You've gone away  
So far away from me

A special engagement  
She lights up the pavement  
She pays her toll to the throne  
She calls the man on the phone  
And says I'm not coming home  
Another lonely soul to please  
You told me it's what you want

Everytime I look into your eyes  
I see this angel deep inside  
You've gone away  
So far away from me  
Everyday I seem to realise  
You save me from this fight inside  
You've gone away  
So far away from me

Keep holding on  
Keep holding on  
To me

I don't what went wrong  
I can't believe she's gone  
I can't believe now that you're gone

She's got a way to the sin  
She's got a way to the light  
She's gone away /2x

In the city of angels (the city of angels)  
You've gone away  
So far away /2x
