

Snap My Fingers

Bridgit Mendler

Darlin'
Is it dark, is it dim in the restaurant
'Cause your lookin' like a blind man
Lookin' away, it's too late, it's too long
See me givin' shade
While you're leaning all the way right around me
To that other girl, and it hurts and I want it

Lookie, lookie, lookie right at me
Gimme, gimme, gimme, gimme, full screen
Focus, focus, trim the boarders, baby
I break that spell you see 'cause

When I snap my fingers
Whip your head around, boy
When I snap my fingers
Whip, whip, whip back to me
When I snap my fingers
Whip your head around, boy
When I snap my fingers
Whip, whip, whip back to me

Rude boy
What you out on the town for with a girl?
If you want her, set her down
Or you'll pick her up when I'm gone 'cause I'm done
Lady, that is me
Not a side piece with your arm right around me
You better know, better know I'm the one

Lookie, lookie, lookie right at me
Gimme, gimme, gimme, gimme, boy, squeeze
Focus, focus, trim the boarders, baby
I break that spell you see 'cause

When I snap my fingers
Whip your head around, boy
When I snap my fingers
Whip, whip, whip back to me
When I snap my fingers
Whip your head around, boy
When I snap my fingers
Whip, whip, whip back to me

Oh, whip, whip, whip
Oh, whip, whip, whip
Oh, whip, whip, whip
Oh
I break that spell you see 'cause

When I snap my fingers
Whip your head around, boy
When I snap my fingers
Whip, whip, whip back to me
When I snap my fingers
Whip your head around, boy
When I snap my fingers

Whip, whip, whip back to me

Whip, whip, whip

Whip, whip, whip
