

Saviors Son

Brighten

Coal-black water, please take me in.
Just wrap me in your arms
Tell me all the stories I have never heard.

Call my father, your only friend
You'll tell them what I did,
You'll tell them who I've been, and that'll be the end.

And oh my God... what have I done?
I'm no savior, just savior's son.
And I can't breathe with a loaded gun...
Oh my baby, baby you're the only one.

Calm, dead morning- it's in the air.
The metal and the rust
My body turned to dust, I could be anywhere.

Soon this all will end
We can start again
Like we did that night.
I can count my sins
Multiply by ten
By the morning light.

Oh my God... what have I done?
I'm no savior, just savior's son.
And I can't breathe with a loaded gun...
Oh my baby, baby you're the only one.

(Keep moving, keep moving, keep moving on.)
Just keep moving... oh, just keep moving...

Oh my God... what have I done?
I'm no savior, just savior's son.
And I can't breathe with a loaded gun...
Oh my baby, baby you're the only one.

(Keep moving, keep moving, keep moving on.)
