

# Windy Heart

Brighten

An empty room  
In your empty eyes  
Your withering love is swallowed by pride almost overnight  
And I know you really love me when you show me gracefully  
Where did you go, my one and only?

When you get that way,  
I don't know what to do when you get that way  
When we met that day (when we met that day)  
I never thought you'd get that way

Hey mister, will you come around  
When will you figure out just who you are?  
You say you're getting better but you change like the weather  
Hold your windy heart

Ooh, when we move the way we do  
How can I get me back to you?

When you get that way,  
I don't know what to do when you get that way  
When we met that day (when we met that day)  
I never thought you'd get that way

I think we know  
I think we know  
Where we went wrong (went wrong)  
I think we know  
I think we know  
You were the one all along

When you get that way,  
I don't know what to do when you get that way  
When we met that day (when we met that day)  
I never thought you'd get that way

When you get that way,  
I don't know what to do when you get that way  
I love you anyway  
I don't know what to do when you get that way
