

You Love Me

Brighten

It's kinda lonely
It's kinda rough
But you sure know me better than I know myself

I tried pretending
It's not how I felt
But you sure know me better than I know myself

And ooh, you love me
And ooh, I love you

I should've done more when I had the chance
I should've done more when I was with you
But who do you love?
Who do you love?
You love me

I tried to look around for other ones
Tried to love again just for fun
But you still found me better than I found myself
And I wanna know where your heart lies
If it's still true
'Cause I think you know me better than I know you

Oh, you don't love him
Oh, you love me

I should've done more when I had the chance
I should've done more when I was with you
But who do you love?
Who do you love?
You love me

More than words
More than what I've been
More than what I did

I should've done more when I had the chance
I should've done more when I was with you
But who do you love?
Who do you love?
You love me
