

# The Night

Brightwood

How long before your body breaks  
With chemicals and cutting lines to try and dull the pain?  
It's bringing you down  
This is no way out  
Just come to me when you are wounded  
Come to me, come to me

In the darkest hour, I will love you there  
I can be the silence, be the song, be your reason to go on  
Open your eyes (open your eyes)  
This is the night (this is the night)  
You're falling back to life

How far you gonna take this?  
This bottle's made to carry your pain, to kill the hate, and cover your shame  
It's breaking you down  
This is no way out  
Come to me when you need help, come to me, come to me

In the darkest hour, and I will hold you then  
I can be the constant, be your rock, be the reason to go on  
Open your eyes (open your eyes), just look ahead (this is the night)  
You're falling back

In the darkest hour, I will love you  
I will hold you  
Open your eyes  
This is the night  
You're falling back to life
