

What You Need

Bring Me the Horizon

You're hypnotized, can't see the signs
I'd like to help you but I think it's too late
Made up your mind and now you're blind
I guess it's easier than making mistakes

Don't ask me why then roll your eyes at the answer
You want a fight, but I won't bite on the bait
And I'm not trying to change your eyes so don't panic
Cause I'm not selling

So don't tell me what I can't see
Cause we both know it's you, not me
You don't want this but it's what you need
And you'll see it when you believe

You'll see it, you'll see it
You'll see it when you believe
You'll see it, you'll see it
And you'll see it when you believe

Give me a break cause I can't take
Another second, you're a fucking headache
I ain't got time to change your mind
How can I move you when you're stuck in your ways

Don't ask me why then roll your eyes at the answer
You want a fight, but I don't bite on the bait
And I'm not trying to change your eyes so don't panic
I'm just saying, well I'm just saying

Don't come crawling back to me when you break down
Cause you dug yourself into this hole all by yourself
Don't come crawling back to me when you break down
You can find somebody else

So don't tell me what I can't see
Cause we both know it's you, not me
You don't want this but it's what you need
And you'll see it when you believe

Don't tell me what I can't see
Cause we both know it's you, not me
You don't want this but it's what you need
And you'll see it when you believe

You'll see it, you'll see it
You'll see it when you believe
You'll see it, you'll see it
And you'll see it when you believe

Yeah, hell yeah
You make me wanna slit my wrists and play in my own blood
Yeah, hell yeah
You make me wanna kill myself just for the fucking fun
(Alright)
Yeah, hell yeah
You make me wanna slit my wrists and play in my own blood

Yeah, hell yeah

You make me wanna kill myself just for the fucking fun

So don't tell me what I can't see

Cause we both know it's you, not me

You don't want this but it's what you need

And you'll see it when you believe

And you'll see it when you believe
