

Last night I slept in a strangers bed, last night I slept
in a strangers bed I think I'll do it again Was just once
I could stop it at any time, was just once I could stop
it at any time But then she did it again

In council flats we're falling down like the rain Don't
watch TV they say that it fucks up your brain I'll do
whatever it takes, I'll do whatever it takes

You're making it worse now I'm trying to help You when
you cant make it Home by yourself And how could you do
this For only a kiss I tried to get to you You treat me
like this

You treat me like this?

Guillotine
