

## Edgy Looking Clothes

British India

You got edgy looking clothes It's personality though I  
don't know where you're from But I know where you'll go  
Have a pointless conversation With the people you know  
Buy a shirt like the rest Then you'll but it on show

When fashion walks you listen I see a price tag on you; I  
see a price tag on you But I know you better than your  
clothes

And I know that you won't stop Anything that they say Is  
the colour the shape And the size of the waist And I  
never have to guess Where you'll be on Wednesday I can  
come if you like I can come but can't stay

But I know you better than your clothes
