

# Autumn Goodbye

Britney Spears

R: I never promised you a happy ending  
You never said you wouldn't make me cry  
but summer love will keep us warm long after  
our autumn goodbye, autumn goodbye  
autumn goodbye

Thinkin' of you and the love of our lives  
in the sweet summertime  
so sad but true (so true, so true)  
we must leave it behind  
in our hearts, in our minds

From April through September  
bittersweet was the love that we share  
don't forget  
I remember

R: (2x)

Memories can fade  
but my heart has a place for the smile on your face  
and maybe someday  
we can be more than friends  
love will find us again

Red leaves and blue tomorrows  
Time will give back the love that we shared  
on the time that we borrowed

R: (2x)

From April through September  
bittersweet was the love that we share  
don't forget  
I remember baby

R: (2x)

We'll leave behind the summertime  
our hearts, our minds  
they will remind  
we won't forget  
the day we met  
the day we cried  
Autumn Goodbye

I never promised you a happy ending  
You never said you wouldn't make me cry  
but summer love will keep us warm long after  
our autumn goodbye, autumn goodbye  
autumn goodbye
