

Before The Goodbye

Britney Spears

Lay me babe in your arms and you hold me tight (tight)
Tryin' not to watch the clock
Tick-tickin' as the time goes by
I don't know, but you'd best be on your way
But I'm wishing I could make you stay
Stay with me for awhile

Though... You're near
Still....I wanna make it clear
Love.... I will always be around

You're leaving, I'm waiting
Forgive me
I'm always missing you
Before the goodbye
I feel it, already
Forgive me
I'm always missing you
Before the goodbye

Come home for me and let you know
Still don't let my feelings show
How much I was missing you
All the little things that make me weak
Your eyes and the way you speak
Without you baby, I'm not near (I'm not near)

Though... You're near
Still....I wanna make it clear
Love.... I will always be around

You're leaving, I'm waiting
Forgive me
I'm always missing you
Before the goodbye
I feel it, already
Forgive me
I'm always missing you
Before the goodbye

You're leaving, I'm waiting
Forgive me
I'm always missing you
Before the goodbye
I feel it, already
Forgive me
I'm always missing you
Before the goodbye

You're leaving, I'm waiting
Forgive me
I'm always missing you
Before the goodbye
I feel it, already
Forgive me
I'm always missing you
Before the goodbye

You're leaving, I'm waiting
Forgive me
I'm always missing you
Before the goodbye
