

Lonely

Britney Spears

To think I'm so naive
How dare you play with me
I gave you heart and soul yeah
Tell me baby please
Why you screwin' with my head
I don't think you understand
I won't take your (gasp) no more
Don't knock on my door

Not this time
Because I recognize
I've heard it all before
And I-I-I-I

I think of all the time I wasted
Think of all the times that I took you back
Ain't no way I'll be lonely
I don't wanna let you back
And let's just face it
I'm better off alone and I won't turn back
You thought that I would be lonely
I don't wanna let you back in

Don't tell me how to feel
Or say that you're for real
My mind's made up I'm cool without ya
You got no more appeal
Now this girl don't need no man
Say what she can do or she can't
Now I live for me
All the things that make you think

Not this time
Because I recognize
I've heard it all before
And I-I-I

I think of all the time that I wasted
I think the times that I took you back Ain't no way I'll be lonely
I don't wanna let you back
And let's just face it
I'm better off alone and I won't turn back
You thought that I would be lonely
I don't wanna let you back in

Think of times you made me cry
You had me so confused
I'm tired of trying to leave behind this
What's a girl to do?

Think about the times you made me sick
I used to think I couldn't handle it
What you think I'm just another chick?
You must have slipped boy, you must have tripped
Now that you figure you lost my trust you
You had it all but now you left for nothin'
Oh baby now I know you want my touch

And now you're lonely and you still want me

I think of all the time that I wasted
I think about the times that I took you back
Ain't no way that I'll be lonely
I don't wanna let you back and
Let's just face it
I'm all alone and I won't turn back
You thought that I would be lonely
I don't wanna let you back

I think of all the time that I wasted
I think of all the times that I took you back
Ain't no way I'll be lonely
I don't want to let you back and
Let's just face it
I'm all alone and I won't turn back
You thought that I would be lonely
I don't wanna let you back in
