

Long Road

Britny Fox

Pulled up in the sunrise, your hometown
Gettin' packed and ready, your big city crowd.

Cause these long and winding roads, roll on through my head.
And now this song we sing cries loud for you.

Cause it's a longroad, headin' your way.
It's a longroad, a song will play.
And we traveled many miles, just to see you smile.
Cause it's a longroad, it's a longroad.

See so many faces, time after time.
Show me how you're feelin', tonight's your night.
