

Turn On

Britny Fox

You're out-dated
Get a reason to kick it down
You gotta feel it
Crank it up till the killer's out

You got the fever
Over-loaded on the heat again
You're taking either
Reachin' up for your number 10

Turn on
Higher than you ever wanted
Turn on
Higher than you ever needed

You got this trouble
Falling off what you're hangin' on
You got to get her
Save the girl right before the dawn

You got the answer
Shine a light from inside your head
You win the dancer
Now we all rock the world again

Turn on
Higher than you ever wanted
Turn on
Higher than you ever needed

Turn on
Higher than you ever wanted
Turn on
Higher than you ever needed

Turn on
Higher than you ever wanted
Turn on
Higher than you ever needed

...
