

Like A Star

Britt Nicole

Been working overtime
And gettin' sick of these crazy games
I'll be a satellite
And wait for someone to enter my gaze

I see you like a star in the sky
And I love it
Yeah, the light in your eyes
And I wonder
When you're looking in mine
Do you see them
Like a star in the sky

You got me falling for ya
And I won't stop 'til I hit the clouds
See I don't wanna hide these feelings
Or even try to figure them out

Sparks flyin' all around
Electricity
Dance with me, dance with me, dance with me
Ten feet off the ground
No gravity
Fly with me, fly with me

I see you like a star in the sky
And I love it
Yeah, the light in your eyes
And I wonder
When you're looking in mine
Do you see them
Like a star in the sky

I see you like a star in the sky
And I love it
Yeah, the light in your eyes
And I wonder
When you're looking in mine
Do you see them
Like a star in the sky

Way up high satellite
yeah
You and I identify

I see you like a star in the sky
And I love it
Yeah, the light in your eyes
And I wonder
When you're looking in mine
Do you see them
Like a star in the sky

I see you like a star in the sky
And I love it
Yeah, the light in your eyes
And I wonder

When you're looking in mine
Do you see them
Like a star in the sky

I see you like a star in the sky
And I love it
Yeah, the light in your eyes
And I wonder
When you're looking in mine
Do you see them
Like a star in the sky

Sparks flyin' all around
Electricity
Dance with me, dance with me
Ten feet off the ground
No gravity
Fly with me, fly with me
