

## Meet A Bear

Britta Persson

Every fly wants to die around half past nine  
On a windowsill  
In this old building  
Watching the sunset  
So do I, so do I, so do I, so do I  
But not quite yet, first show me Tokyo!

I saw a band with two girls from Japan  
They hit their guitars hard and they sang  
Words I couldn't understand

I want to meet a bear before I die  
I want to help a teenager say goodbye  
To a boyfriend she never even liked  
But whom she thought made her look more grown up  
I want to go to Tokyo

Children used to run in these stairs heading for open air  
In-between boring lessons in math and geography  
I do too, I do too, I do too, I do too  
But I wish you'd say it's time to play

I saw a band with two girls from Japan  
They hit their guitars hard and they sang  
Words I couldn't understand

I want to meet a bear before I die  
I want to help a teenager say goodbye  
To a boyfriend she never even liked  
But whom she thought made her look more grown up  
I want to go to Tokyo
