

## A Day In November

Bro'Sis

My life has changed - on a day in november  
i've learned so many things about myself -  
but sometimes i'm sad - on a day in november  
cos I feel with all my friends - who were left  
behind

I've come long ways to be where I am - did  
all the best - all the best I can - met lots  
of new people who became my friends - but  
should it be over now

yeah you became another part of me - and I  
wanna thank you endlessly

My life has changed - on a day in november  
i've learned so many things about myself -  
but sometimes i'm sad - on a day in november  
cos I feel with all my friends - who were left  
behind
