Days of our lives

Aha, this is ''Days Of Our Lives'' We gonna present it like this

Put the music on and let me sing I can feel the magic that you bring Don't keep me waiting, I just can't take it

And if you turn back the time Remember when you were just mine Then you can feel it, this is how I see it

It's gonna be the days of our lives We're gonna fly high in the blue sky Wait for the right plane Playing that same game It's there in your eyes We just can't miss it this time And there is no time for goodbye

This is the life that you chose, so live it You can watch, you can maybe sit in I tell you one thing and this one's for sure This is your life, so you take care of it all

Let the people see what love can bring This is not a game that someone wins If you don't use it, I'm sure you will lose it

I'm gonna give up my life I'm gonna stay here by your side I know that you feel it, so this is your call

It's gonna be the days of our lives We're gonna fly high in the blue sky Wait for the right plane Playing that same game It's there in your eyes We just can't miss it this time And there is no time for goodbye

Don't wanna stay, let's go today Always together Don't wanna make the same mistake Love you forever Oh girl can't you see what we're going through I can't go on without you

This is ''Days Of Our Lives'' It's gonna be the days of our lives We're gonna fly high in the blue sky Wait for the right plane Playing that same game It's there in your eyes We just can't miss it this time And there is no time for goodbye

It's there in your eyes

Wait for the right plane Playing that same game... And there is no time for goodbye
